Subject: Seeking Macintosh APRS

I've been looking high and low for the Macintosh version of Automated  
Packet Reporting System (Mac APRS). I've heard that version 2.0 is  
available.

I'm currently using Host Master Mac 2.0 for packet and would very much  
like to add APRS to my system. If anyone can steer me toward a copy of the  
shareware or full versions I'd greatly appreciate it.

Thanks,
